1 Installation Guide

This is a quick guide on installation, and updating.

1.1 Plugin Installation

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress, please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the **WooCommerce Composite Products Plugin**. In the full .ZIP archive you have downloaded from [Codecanyon.net](#) you will find file. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install **WooCommerce Composite Products Plugin**, please read these steps carefully.

Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the .ZIP file on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Installing using FTP

Follow the steps bellow to install using FTP

- Unzip the file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the ext_woo_abandoned_cart.zip archive
- Upload local folder /Extendons-woocommerce-Direct-checkout/ to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the **WooCommerce Composite Products Plugin**

1.2 Plugin Updates

Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed **WooCommerce Composite Products Plugin** and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive .ZIP on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

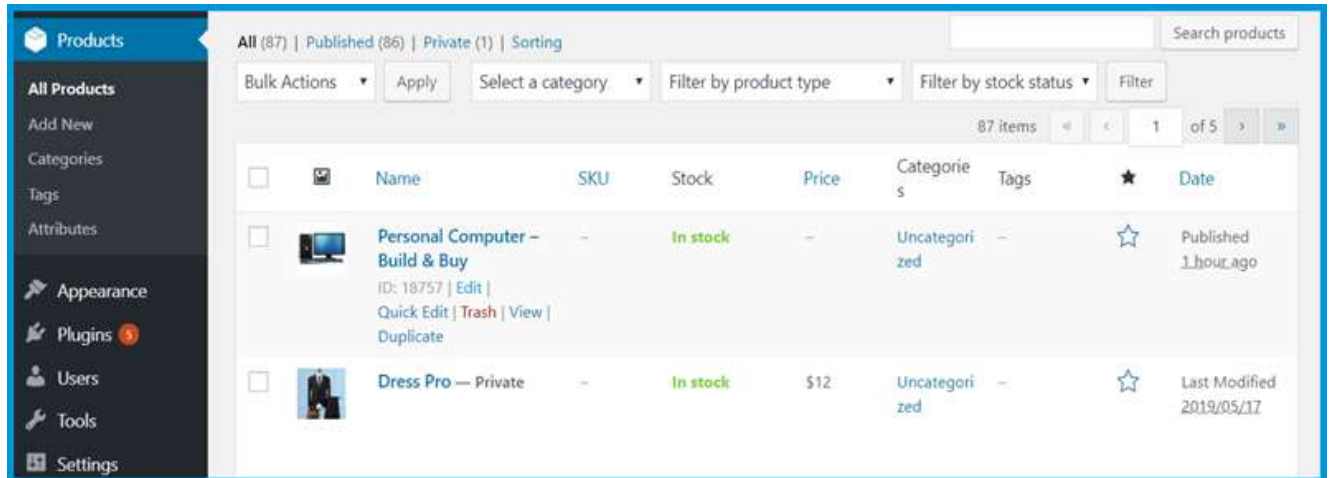

- Unzip the new version archive .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folde
- Locate the local directory where you have unzipped the new version archive .ZIP file
- Upload local folder to remote /wp-content/plugins/

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

2.1 How To Create a Composite Product

At the backend end go to go to any Product Details Page from **Products > Add Products**. You can edit an existing product or **Add New** product here.

Scroll down to find **Product Data** droption. Select **Extend on Composite Product** and click on the **Extend on Composite** tab. Here you can add multiple composite options by clicking **Add New Composite**, once added you have to provide the following information to create a composite:

Component Title Goes Here.....

- **Name**
- **Description**
