

WooCommerce Product Image - Watermark Plugin

- by: Extendons
- www.extendons.com/
- email: info@extendons.com

1 Installation Guide

This is a quick guide on installation, and updating.

1.1 Plugin Installation

To install WooCommerce Product Image Watermark plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the WooCommerce Product Image Watermark. In the full .ZIP archive you have downloaded from **Codecanyon.net** you will find a file called `extendons_product_image_watermark.zip`. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install WooCommerce Product Image Watermark, please read these steps carefully.

Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate `extendons_product_image_watermark.zip` on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Installing using FTP

Follow the steps bellow to install using FTP

- Unzip extendons_product_addons.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the extendons_product_addons.zip archive
- Upload local folder /extendons_product_addons/ to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the Woocommerce Custom Product Designer

1.2 Plugin Updates

Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed WooCommerce Product Image Watermark plugin and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive extendons_product_image_watermark.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive extendons_product_image_watermark.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder /extendons_product_image_watermark/
- Locate the local directory where you have unzipped the new version archive extendons_product_image_watermark.zip

- Upload local folder /extendons_product_image_watermark/ to remote /wp-content/plugins/

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

2.1 How to Add Watermarks

Step 1 - Go to Product Image Watermark:

At the Backend go to the "Product Image Watermark". Here you will find the following information. Click on "Add New Option" to continue.

Step 2 - Attach Watermarks and Edit Settings:

Now here you can add your Watermark as per your requirement. For the purpose of this demo we have added to following Watermark & gave them mentioned settings.

- Dashboard
- Posts
- Product Image Watermark
- Product Image Watermark
- Support
- Media
- Pages
- Comments
- WooCommerce
- Products
- Appearance
- Plugins
- Users
- Tools
- Settings
- Collapse menu

Product Image Watermark

You can protect your images being copied by placing watermark!
