1 Installation Guide

This is a quick guide on installation, and updating.

1.1 Plugin Installation

To install WooCommerce Product Image Zoom Plugin - Zoom Magnifier on Hover you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the WooCommerce Product Image Zoom Plugin - Zoom Magnifier on Hover. In the full .ZIP archive you have downloaded from **Codecanyon.net** you will find a file called `extendons_product_image_zoom.zip`. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install WooCommerce Product Image Zoom Plugin - Zoom Magnifier, please read these steps carefully.

Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate `extendons_product_image_zoom.zip` on your computer and click Install Now
- When installation is done please click Activate to activate plugin

1.2 Plugin Updates

Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed WooCommerce Product Image Zoom Plugin - Zoom Magnifier on Hover Click and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive extendons_product_image_zoom.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive extendons_product_image_zoom.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder /extendons_product_image_zoom/
- Locate the local directory where you have unzipped the new version archive extendons_product_image_zoom.zip
- Upload local folder /extendons_product_image_zoom/ to remote /wp-content/plugins/

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

2.1 How to Configure the Plugin

At the backend, go to "Zoom Modifier". Here you will find the following settings:

General Settings:

Tool: Selected tool will be applied to the product image and gallery section on the single product page.

Rotate 360' Alternative: Select alternative tool for products when 360 image image is not available.

Shop Page Tool: Selected tool will be applied on shop, related products and category pages.

Exclude: Select product(s) or category(s) on which you don't want to apply the tools.
