- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder
- Locate the local directory where you have unzipped the new version archive .ZIP file
- Upload local folder to remote /wp-content/plugins/

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

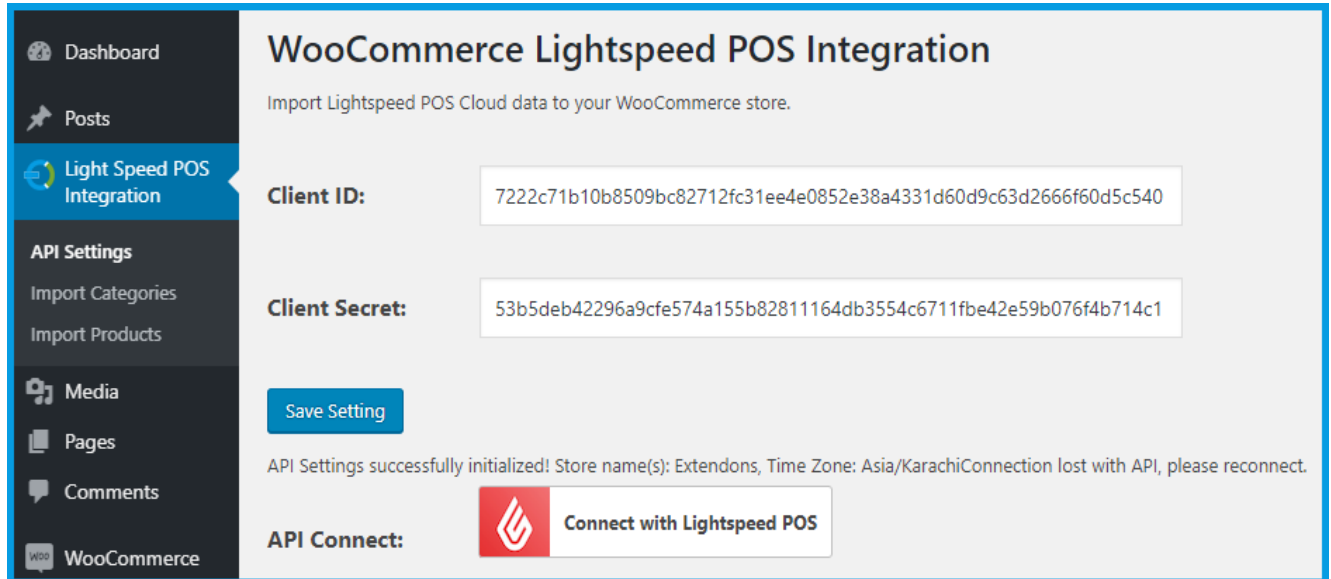

2.1 How to Configure the API Settings

At the back end go to **Light Speed POS Integration > API Settings**. Here you will have the following options to add photographs

WooCommerce Lightspeed POS Integration

Import Lightspeed POS Cloud data to your WooCommerce store.

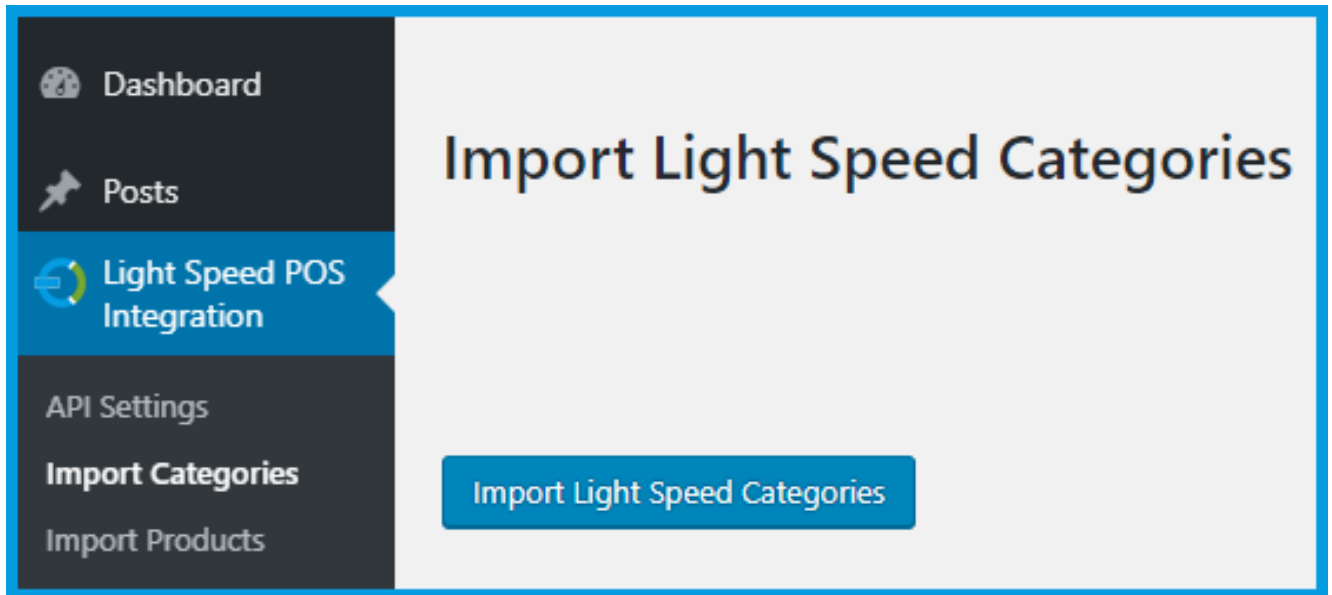

- **Client ID**
- **Client Secret**
- **API Connect**

The screenshot shows the 'WooCommerce Lightspeed POS Integration' settings page. On the left is a dark sidebar with navigation links: Dashboard, Posts, Light Speed POS Integration (highlighted), API Settings, Import Categories, Import Products, Media, Pages, Comments, and WooCommerce. The main content area has a light blue header with the title 'WooCommerce Lightspeed POS Integration' and the subtitle 'Import Lightspeed POS Cloud data to your WooCommerce store.' Below this, there are two input fields: 'Client ID' with the value '7222c71b10b8509bc82712fc31ee4e0852e38a4331d60d9c63d2666f60d5c540' and 'Client Secret' with the value '53b5deb42296a9cfe574a155b82811164db3554c6711fbc42e59b076f4b714c1'. A blue 'Save Setting' button is positioned below the Client Secret field. A status message reads: 'API Settings successfully initialized! Store name(s): Extendons, Time Zone: Asia/KarachiConnection lost with API, please reconnect.' At the bottom, there is an 'API Connect:' label, a red and white logo, and a button labeled 'Connect with Lightspeed POS'.

2.2 How to Import Categories

At the back end go to **Light Speed POS Integration > Import Categories**. Here you will find the following. Click on **Import Light Speed Categories** to import categories.

2.3 How to Import Products

At the back end go to **Light Speed POS Integration > Import Products**. Here you will find the list of products in a grid that have been imported. Click on **Load Light Speed Products** to import products.
