1 Installation Guide

This is a quick guide on installation, and updating.

1.1 Plugin Installation

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the **WooCommerce My Account Page Plugin, Customize Customer Account Page**. In the full .ZIP archive you have downloaded from Codecanyon.net. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install **WooCommerce My Account Page Plugin, Customize Customer Account Page**, please read these steps carefully.

Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the .ZIP on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Installing using FTP

Follow the steps bellow to install using FTP

- Unzip the provided .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the archive
- Upload local folder to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the **WooCommerce My Account Page Plugin, Customize Customer Account Page**

1.2 Plugin Updates

Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed **WooCommerce My Account Page Plugin, Customize Customer Account Page** and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive .ZIP file on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder
- Locate the local directory where you have unzipped the new version archive .ZIP file
- Upload local folder to remote /wp-content/plugins/

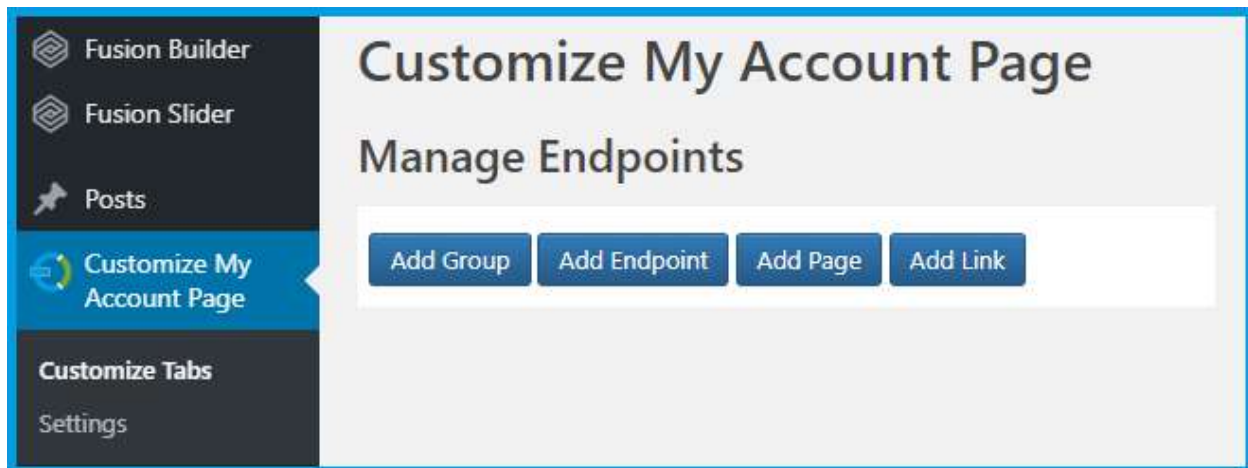

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

2.1 How to Add Custom Tabs on the "My Account's" Page

At the back end go to **Customize My Account Page > Custom Tabs**. Here you add the following tabs to the my accounts page:

- **Group**
- **Endpoint**
- **Page**
- **Link**

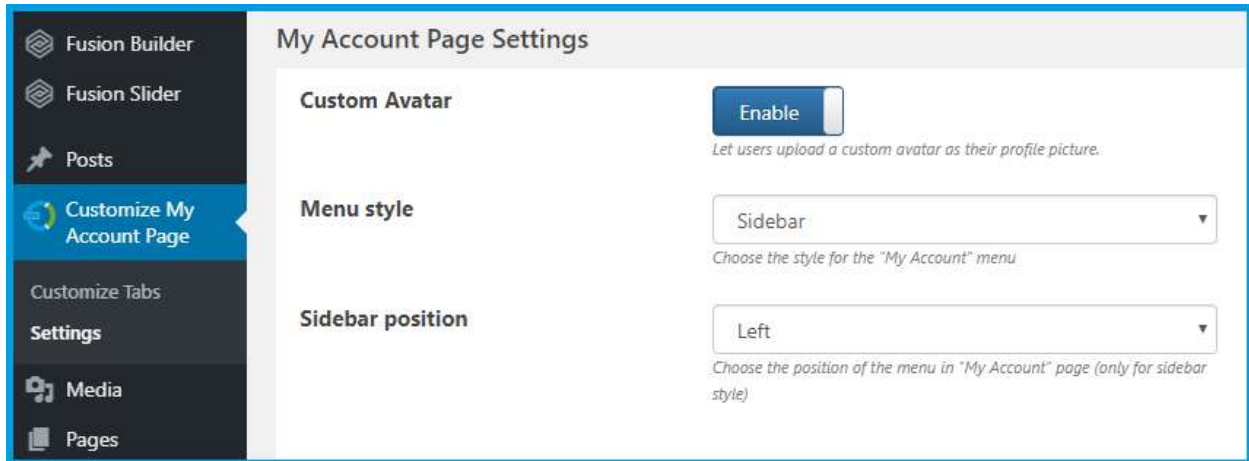

Each custom tab has settings on its own which the admin will have to configure before adding the tab as per their requirement.

2.2 How to Configure the Plugin

At the backend end go to **Customize My Account Page > Settings**. Here you will find the following.

My Account Page Settings

- **Custom Avatar:** Let users upload a custom avatar as their profile picture
- **Menu Style:** Choose the style for the "My Account" men
- **Sidebar Position:** Choose the position of the menu in "My Account" page (only for sidebar style)

Style Setting

- **Menu Item Color:** Choose a color for menu items
- **Menu Item Color on Hover:** Choose colour of menu items on mouse hover
- **Logout Color:** Choose the color of the Logout text
- **Logout Color on Hover:** Choose the color of the Logout text on mouse hover
