# **WooCommerce Measurement Price Calculator Plugin**

- by: Extendons
- extendons.com/
- email: info@extednons.com

### **1** Installation Guide

This is a quick guide on installation, and updating.

#### **1.1 Plugin Installation**

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress, please see the WordPress Codex - Installing WordPress. For installing the WooCommerce and configure the shop please visit the following link WooThemes - Installing WooCommerce.

• Now the next step is the **WooCommerce Measurement Price Calculator Plugin**. In the full .ZIP archive you have downloaded from Codecanyon.net. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install **WooCommerce Measurement Price Calculator Plugin**, please read these steps carefully.

#### Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the .ZIP on your computer and click Install Now
- When installation is done please click Activate to activate plugin

#### **Installing using FTP**

Follow the steps bellow to install using FTP

• Unzip the provided .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP

- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the archive
- Upload local folder to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the **WooCommerce Measurement Price Calculator Plugin**

# **1.2 Plugin Updates**

# Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed **WooCommerce Measurement Price Calculator Plugin** and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive .ZIP file on your computer and click Install Now
- When installation is done please click Activate to activate plugin

#### **Update using FTP**

Follow the steps bellow to update using FTP

- Unzip the new version archive .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder
- Locate the local directory where you have unzipped the new version archive .ZIP file
- Upload local folder to remote /wp-content/plugins/

# 2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

# **2.1 How to Add Products with Pricing Calculator Enabled**

At the backend go to **Products**. Here you will the list of the products on your store. **Edit** any product to continue.

<ul> <li>Dashboard</li> <li>Avada</li> </ul>	WordPress 5.2	is available! <u>Please update now</u> .						Screen Option	s ▼ Help ▼
Fusion Builder	Products         Add New         Import         Export           WooCommerce data update complete. Thank you for updating to the latest version!         Import in the latest version!         Import in the latest version!							Oismiss 🕄	
📌 Posts 9 Media	Your store does not appear to be using a secure connection. We highly recommend serving your entire website over an HTTPS connection to help keep customer data secure. Learn O Dismiss more here.
