1 Installation Guide

This is a quick guide on installation, and updating.

1.1 Plugin Installation

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the WordPress Codex - Installing WordPress. For installing the WooCommerce and configure the shop please visit the following link WooThemes - Installing WooCommerce.

- Now the next step is the Woocommerce Product Addons - Custom Product Options. In the full .ZIP archive you have downloaded from **Codecanyon.net** you will find a file called extendons_product_addons.zip. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install Woo-commerce PDF Invoices, please read these steps carefully.

Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate extendons_product_addons.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Installing using FTP

Follow the steps bellow to install using FTP

- Unzip extendons_product_addons.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the extendons_product_addons.zip archive
- Upload local folder /extendons_product_addons/ to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the Woocommerce Custom Product Designer

1.2 Plugin Updates

Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed Woocommerce Product Addons - Custom Product Options plugin and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive extendons_product_addons.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive extendons_product_addons.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder /extendons_product_addons/
- Locate the local directory where you have unzipped the new version archive extendons_product_addons.zip

- Upload local folder /extendons_product_designer/ to remote /wp-content/plugins/

2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.
