## 1 Installation Guide

---

This is a quick guide on installation, and updating.

### 1.1 Plugin Installation

---

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the Woocommerce PDF Invoices. In the full .ZIP archive you have downloaded from **Codecanyon.net** you will find a file called extendons-PDF-invoices-pro.zip. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install Woo-commerce PDF Invoices, please read these steps carefully.

### Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate extendons\_product\_designer.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

## Installing using FTP

Follow the steps bellow to install using FTP

- Unzip extendons-PDF-invoices-pro.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the extendons-PDF-invoices-pro.zip archive
- Upload local folder /extendons-PDF-invoices-pro/ to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the Woocommerce Custom Product Designer

## 1.2 Plugin Updates

---

### Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed Woocommerce Custom Product Designer plugin and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive extendons\_product\_designer.zip on your computer and click Install Now
- When installation is done please click Activate to activate plugin

### Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive extendons\_product\_designer.zip to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder /extendons-PDF-invoices-pro/
- Locate the local directory where you have unzipped the new version archive extendons-PDF-invoices-pro.zip

- Upload local folder /extendons\_product\_designer/ to remote /wp-content/plugins/

## 2 User Guide

---

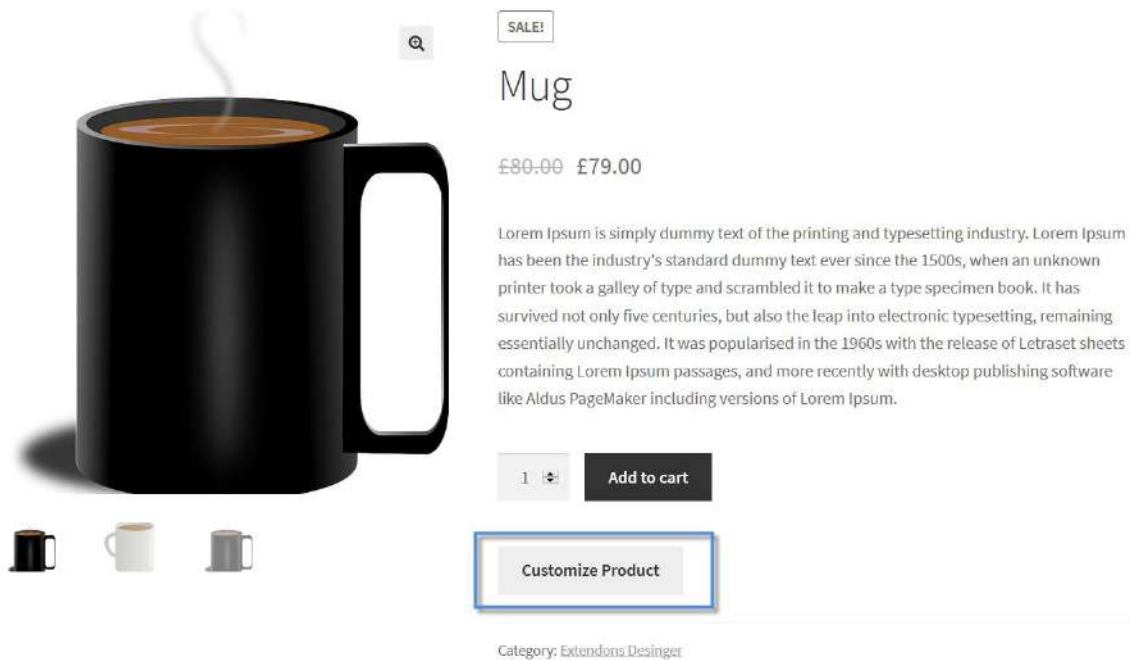

After installation of plugin, login to admin panel and flush your cache storage.

### 2.1 How to Customize a Product with this Plugin

---

#### Step 1 - Go to Product Page:

At the frontend go to the product page. Here you will find the product and its information. Click on "Customize Product" to continue.

#### Step 2 - Customize your Product:

Now here you can customize your product as per your requirement. For the purpose of this demo we have added the following customizations. You can click on "Finish Design" and work on more customizations or click on "Save & Proceed" to continue.

<input type="checkbox"/>	Title	Clip Art Categories	Date	Clip Art Images
<input type="checkbox"/>	<a href="#">Union Jack</a>	badges	Published 1 min. ago	
<input type="checkbox"/>	<a href="#">crotia</a>	flag	Published 2017/10/05	
<input type="checkbox"/>	<a href="#">Roosoo</a>	flag	Published 2017/10/05	

## 2.3 How to Add Categories

## Step 1 - Go to Clip Art Categories

At the backend go to "Clip Art Categories", here you have the option to add new categories or edit old ones. For the purpose of this demo we have added the following information.

WooCommerce data update – We need to update your store database to the latest version.  
[Run the update!](#)

Search Clip Art Categories

**Add Clip Art Categories**

Name  
User Guide  
*The name is how it appears on your site.*

Slug  
user-guide  
*The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.*

Parent Clip Art Categories  
None  
*Assign a parent term to create a hierarchy. The term Jazz, for example, would be the parent of Bebop and Big Band.*

Description  
User Guide Example  
*The description is not prominent by default; however, some themes may show it.*

[Add Clip Art Categories](#)

Bulk Actions  Apply 5 items

<input type="checkbox"/>	Name	Description	Slug	Count
<input type="checkbox"/>	badges		badges	1
<input type="checkbox"/>	car		car	2
<input type="checkbox"/>	clipart		clipart	0
<input type="checkbox"/>	flag		flag	8
<input type="checkbox"/>	social		social	5

Bulk Actions  Apply 5 items

## Step 2 - Clip Art Categories

Now at the backend your category will be created. You can add Clip Arts to this as explained above.

The screenshot displays the WordPress admin interface for managing 'Clip Art Categories'. On the left is a dark sidebar with navigation links. The main content area features a notification at the top, followed by a form to add new categories and a table of existing ones. The table has columns for Name, Description, Slug, and Count.

Name	Description	Slug	Count
<input type="checkbox"/> User Guide	User Guide Example	user-guide	0
<input type="checkbox"/> badges		badges	1
<input type="checkbox"/> car		car	2
<input type="checkbox"/> clipart		clipart	0
<input type="checkbox"/> flag		flag	8
<input type="checkbox"/> social		social	5

## 2.4 How to Configure the Plugin
