2 User Guide

After installation of plugin, login to admin panel and flush your cache storage.

2.1 How to Import/Export Products

At the backend end go to **Product Import/Export**. Here you will find the Import & Export tabs as shown below. You can Import or Products in CSV Files here as per your requirements.

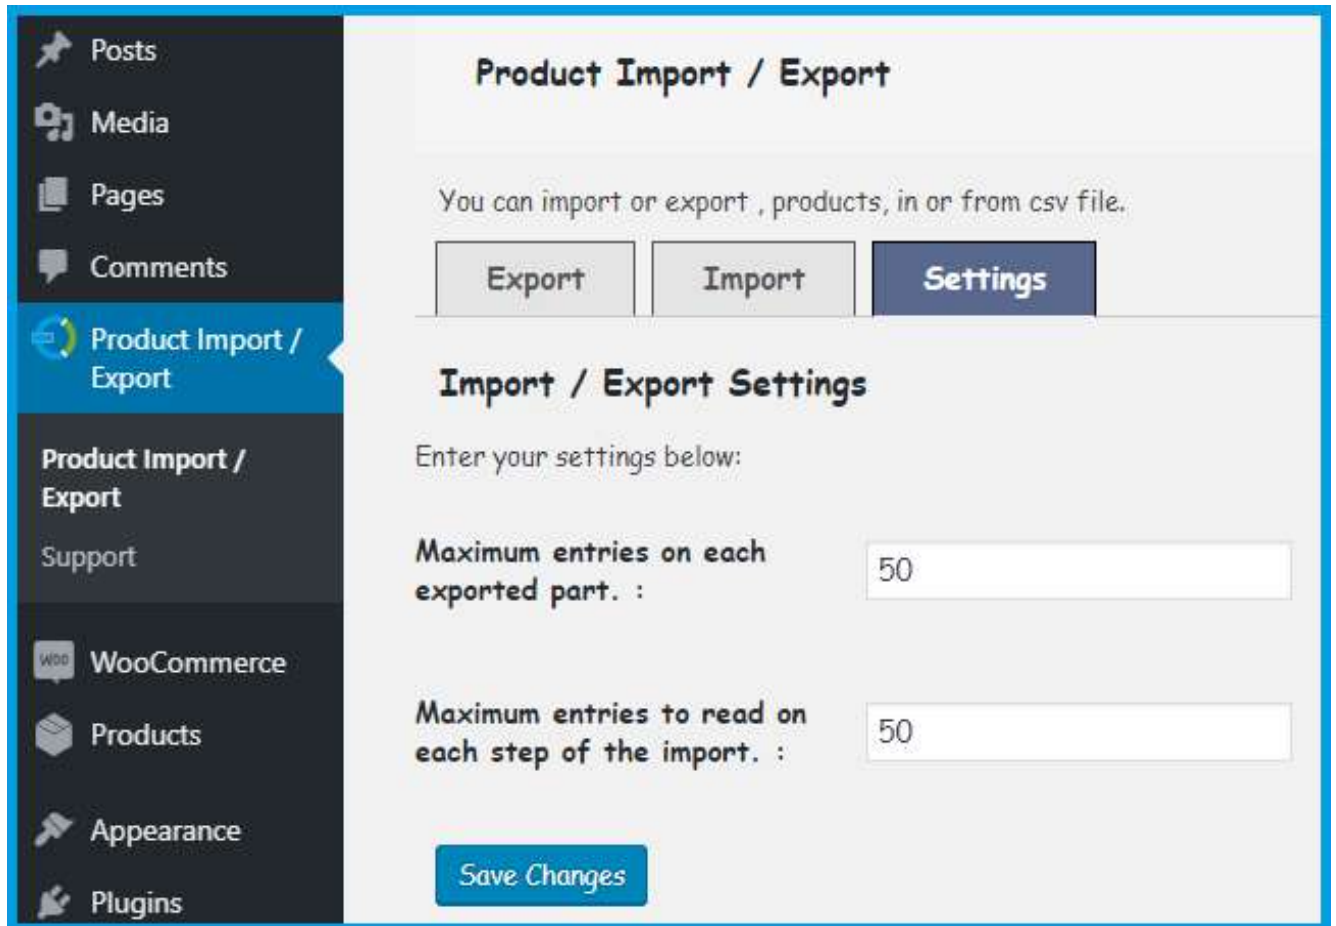

2.2 How to Configure the Plugin

At the backend, go to **Product Import/Export** and to the **Settings** tab. Here you will find the following settings:

Import / Export Settings:

- **Maximum entries on each exported part**
- **Maximum entries to read on each step of the import**

The screenshot shows the WordPress admin interface for the Product Import/Export plugin. On the left is a dark sidebar with navigation links: Posts, Media, Pages, Comments, Product Import / Export (highlighted in blue), Product Import / Export Support, WooCommerce, Products, Appearance, and Plugins. The main content area has a header 'Product Import / Export' and a sub-header 'You can import or export , products, in or from csv file.' Below this are three tabs: 'Export', 'Import', and 'Settings' (which is active and highlighted in blue). The 'Settings' tab contains the title 'Import / Export Settings' and the instruction 'Enter your settings below:'. There are two settings: 'Maximum entries on each exported part. :' with a text input field containing '50', and 'Maximum entries to read on each step of the import. :' with a text input field containing '50'. At the bottom of the settings area is a blue button labeled 'Save Changes'.
