General Settings of WooCommerce Redirect After Login

At the WooCommerce admin panel, go to **WooCommerce > Redirect After Login** and create new rule.

Here you can set the followings:

- **Rule Name**
- **Select Users Type (User Roles/User Names)**
- **Redirect Type (After Login/After Registration/After Logout)**
- **URL Type (Custom URL/Default Pages)**
- **Rule Status (Enable/Disable)**

a) First you have to choose the rule name to create rule.

The screenshot displays the 'Extension Settings' page for the 'Redirect After Login' extension. The left sidebar shows the 'WooCommerce' menu with 'Redirect After Login' highlighted. The main content area shows the 'Redirect Type' settings. The 'Rule Name' field is highlighted with a red box and a purple arrow pointing to it, containing the text 'Login rule'. Other fields include 'Select Users type', 'Redirect Type', 'URL Type', and 'Rule Status', all with dropdown menus. A 'Save Settings' button is visible at the bottom right.

b) You can apply rule on specific customers or user roles.
