## 1 Installation Guide

---

This is a quick guide on installation, and updating.

### 1.1 Plugin Installation

---

To install WooCommerce Product plugin you must have a working and latest version of WordPress and WooCommerce plugin already installed. For information on installing the WordPress , please see the [WordPress Codex - Installing WordPress](#). For installing the WooCommerce and configure the shop please visit the following link [WooThemes - Installing WooCommerce](#).

- Now the next step is the **Woocommerce Zapier Extension, All-in-One Zapier Integration Plugin**. In the full .ZIP archive you have downloaded from Codecanyon.net. This file is the installable .ZIP archive you can install via WordPress.

Now is time to install **Woocommerce Zapier Extension, All-in-One Zapier Integration Plugin**, please read these steps carefully.

### Installing from WordPress

Follow the steps bellow to install from WordPress Admin Dashboard

- Navigate to Plugins
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the .ZIP on your computer and click Install Now
- When installation is done please click Activate to activate plugin

### Installing using FTP

Follow the steps bellow to install using FTP

- Unzip the provided .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory
- Locate the local directory where you have unzipped the archive
- Upload local folder to remote /wp-content/plugins/
- To activate the newly installed plugin navigate to Plugins and click the Activate button within the **Woocommerce Zapier Extension, All-in-One Zapier Integration Plugin**

## 1.2 Plugin Updates

---

### Update from WordPress Admin

Follow the steps bellow to update from WordPress Admin Dashboard

- Navigate to Plugins
- Find the currently installed **Woocommerce Zapier Extension, All-in-One Zapier Integration Plugin** and click Deactivate
- After deactivation click Delete to remove the old version (your saved setting will not be lost)
- Click Install Plugins and click Add New
- Click the Upload Plugin button
- Navigate the new version archive .ZIP file on your computer and click Install Now
- When installation is done please click Activate to activate plugin

### Update using FTP

Follow the steps bellow to update using FTP

- Unzip the new version archive .ZIP file to a desired location on your computer. These extracted files will be uploaded later via FTP
- Connect to your server via FTP (Use FileZilla or any other FTP client)
- Navigate to /wp-content/plugins/ server directory and delete the current plugin folder
- Locate the local directory where you have unzipped the new version archive .ZIP file
- Upload local folder to remote /wp-content/plugins/

## 2 User Guide

---

After installation of plugin, login to admin panel and flush your cache storage.
