

HIDE PRICE & ADD TO CART

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of [Hide Price & Add To Cart](#) App for Shopify. A step by step instruction has been added to this document to help users to install this app on their Shopify stores.

This app will only work on Shopify. As a safe practice always backup your files and database before installing any app on your store. If you are looking for someone to install this app, we can do it for you as well. Just go to our store page and let our support know the order id to expedite the installation process.

Once it is installed please refer to the User Guide to help you understand how to use this app to its full capacity. If you still have questions, feel free to contact us via email at info@extendons.com.

USER GUIDE

HOW TO INSTALL HIDE PRICE & ADD TO CART

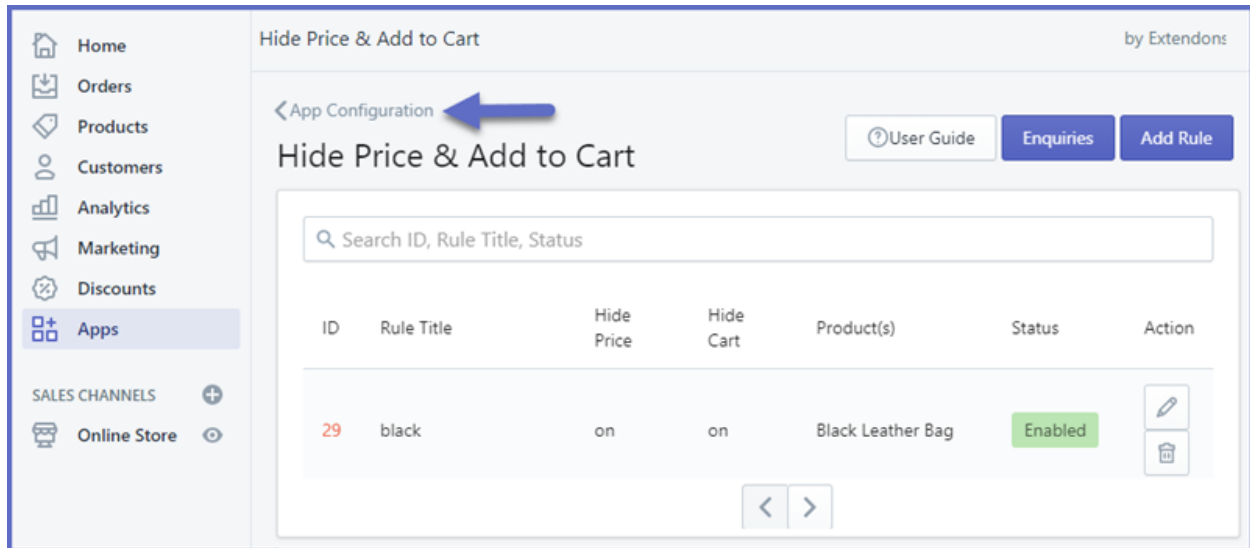

First, at the back end, go to the [Apps](#) store. Here you will find the Hide Price & Add to Cart app. Click on [Hide Price & Add to Cart](#) and add it to your store after accepting billing. Once installed, the user will be redirected to the app interface.

Demo Link: <https://hide-price-add-to-cart.myshopify.com/>

HOW TO CONFIGURE THE APP

At the back end, go to [App Configuration](#) from the app page as highlighted below:

ID	Rule Title	Hide Price	Hide Cart	Product(s)	Status	Action
29	black	on	on	Black Leather Bag	Enabled	 

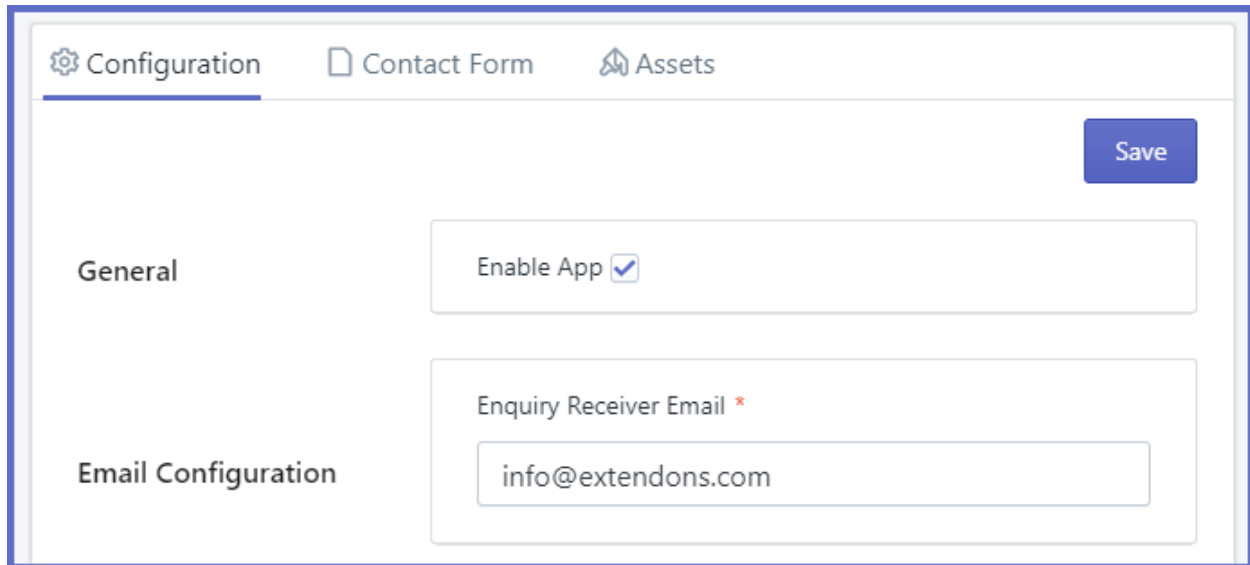

Here you will find the following configurations:

GENERAL

- **Enable App:** Option to Enable or Disable the Hide Price & Add to Cart app

EMAIL CONFIGURATION

- **Enquiry Receiver Email:** Add any specific email to receive enquiry emails e.g. info@extendons.com

The screenshot shows the 'Configuration' tab of the Extensons admin dashboard. It features a 'Save' button in the top right corner. The configuration is divided into two sections: 'General' and 'Email Configuration'. The 'General' section contains an 'Enable App' checkbox which is checked. The 'Email Configuration' section contains an 'Enquiry Receiver Email' field with a red asterisk, containing the text 'info@extendons.com'.

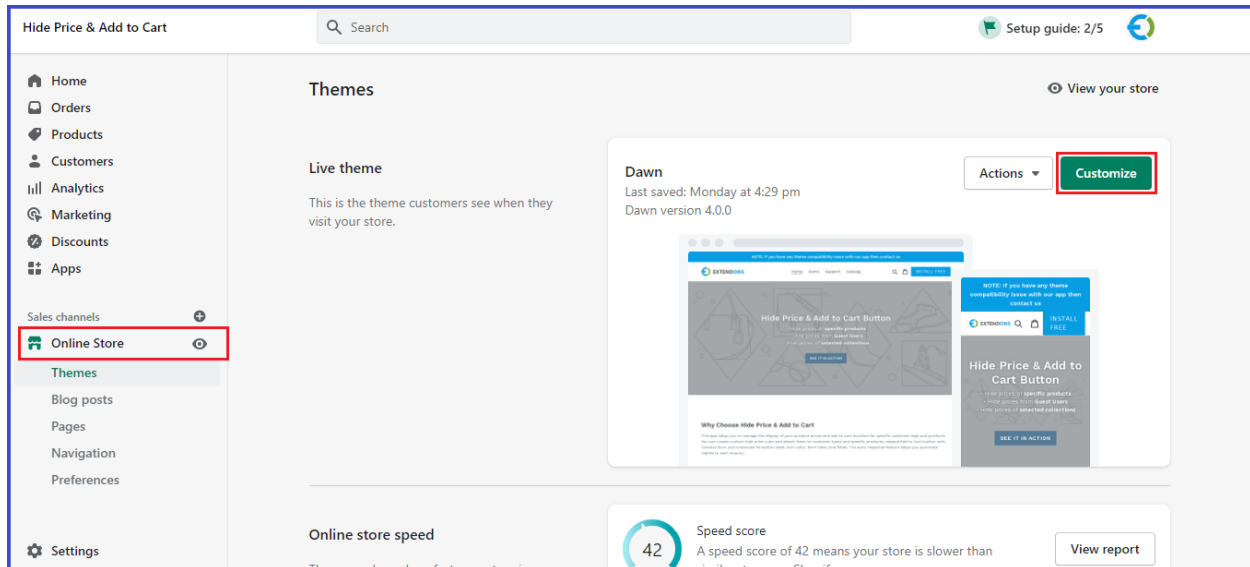

Configuration	Contact Form	Assets
General		
Enable App <input checked="" type="checkbox"/>		
Email Configuration		
Enquiry Receiver Email *		
info@extendons.com		

DISPLAY SETTINGS FOR OS 2.0

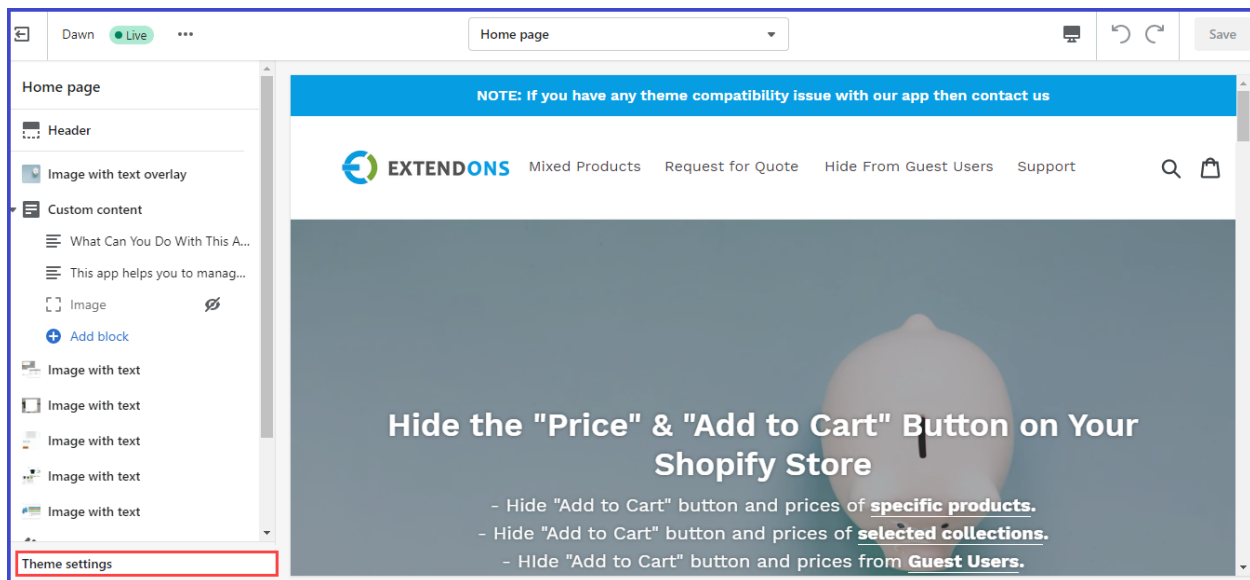

CONFIGURE DISPLAY SETTINGS FOR DAWN THEME VS. OS 2.0

APPS EMBEDS

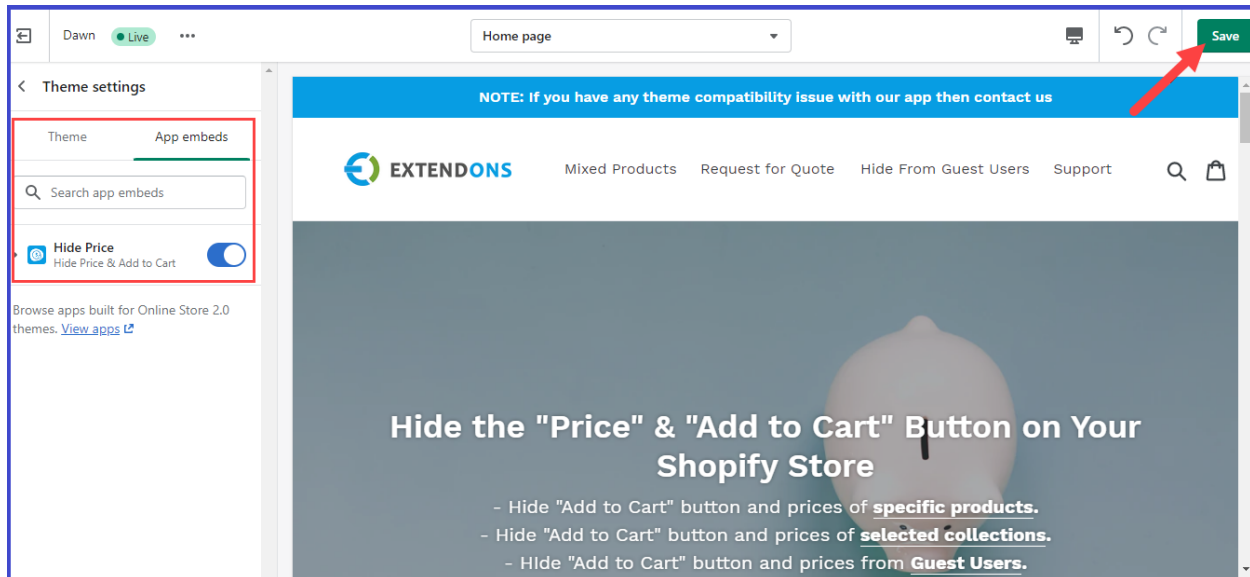

At the admin dashboard click on the [online store](#) and select [themes](#) click on [customize](#)

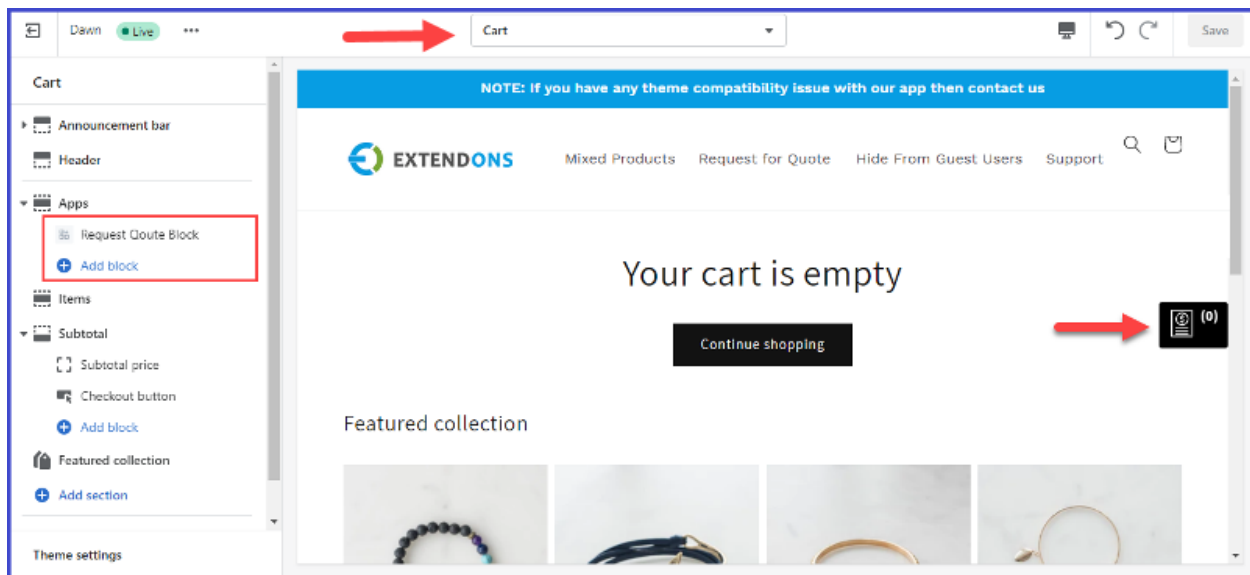

Click on [customize](#) button and go to [theme settings](#) > [App Embeds](#)

Here you can enable the [app embeds](#) section and click on save button

Click on search bar select [cart](#) page > click on [add block](#) link > [add request cart block](#) section that displayed on the store front page > click on the [save](#) button

CONTACT FORM

- **Contact Form Label:** Enter a label for contact form **e.g.** Ask for Quote. Contact form label will display as a modal/popup heading
- **Modal/Popup Button Font Color:** Enter a font color for modal/popup button **i.e.** white or Hex code #FFFFFF
- **Modal/Popup Button Background Color:** Enter a background color for modal/popup button **i.e.** black or Hex code #000000
- **Success Message:** Enter a message that will be displayed on successful submission of the form **e.g.** Congratulations! Your messages have been sent successfully.
- **Error Message:** Enter a message that will be displayed in case of any errors while submission of the form **e.g.** Please fill all the fields.

COMPATIBILITY (OPTIONAL)

All these options are for the ease of the developers in case of this app has some compatibility issues with your installed theme.

- **Product Container Selector:** Product Container Selector *i.e.* price or #product-card
- **Price Selector:** Product Price Selector *i.e.* price or #price
- **Add to Cart Button Selector:** Add to Cart Button Selector *i.e.* AddtoCart or #AddtoCart
- **Buy Button Selector:** Buy Button Selector *i.e.* product-form__item--payment-button

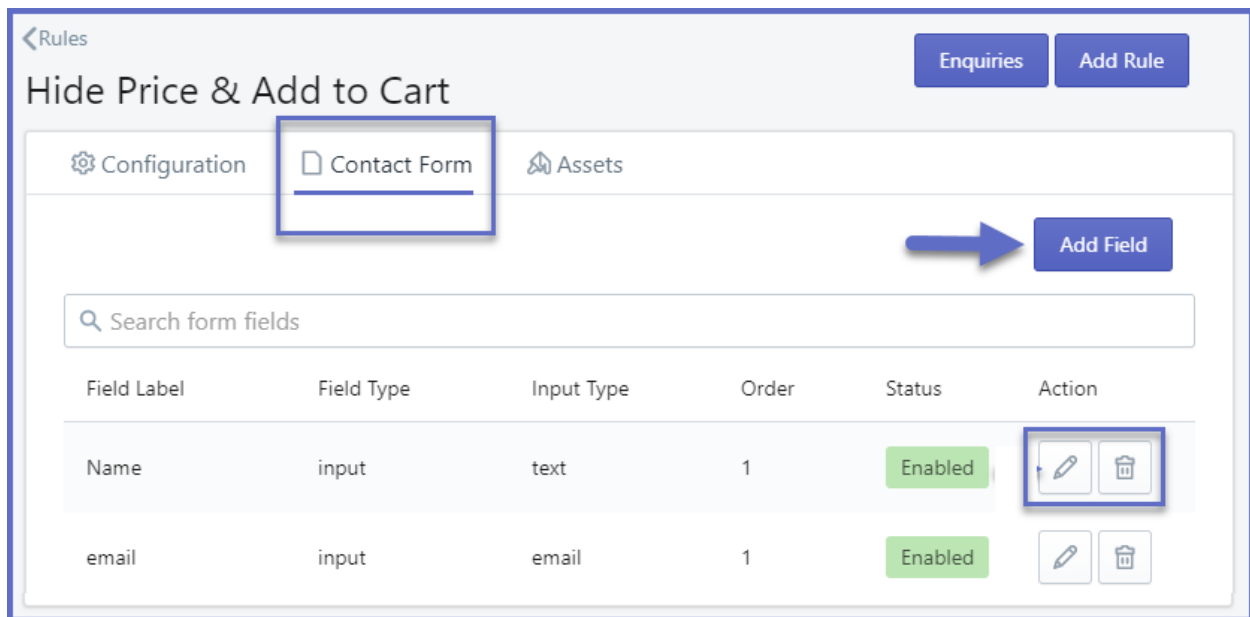

The screenshot shows a web application configuration interface. At the top, there are three tabs: 'Configuration' (selected), 'Contact Form', and 'Assets'. Below the tabs, the main content area is titled 'Compatibility (optional)'. It contains five rows of configuration options, each with a label and a text input field. The input fields contain the following text: 'Product Container Selector i.e .price or #product-card', 'Product Container Selector i.e .price or #product-card', 'Price Selector i.e .price or #price', 'Add to Cart Button Selector i.e .AddtoCart or #AddtoCart', and 'Buy Button Selector i.e .product-form__item--payment-button'. A 'Save' button is located at the bottom right of the configuration area.

Label	Value
Product Container Selector	Product Container Selector i.e .price or #product-card
Product Container Selector	Product Container Selector i.e .price or #product-card
Price Selector	Price Selector i.e .price or #price
Add to Cart Button Selector	Add to Cart Button Selector i.e .AddtoCart or #AddtoCart
Buy Button Selector	Buy Button Selector i.e .product-form__item--payment-button

Add Field

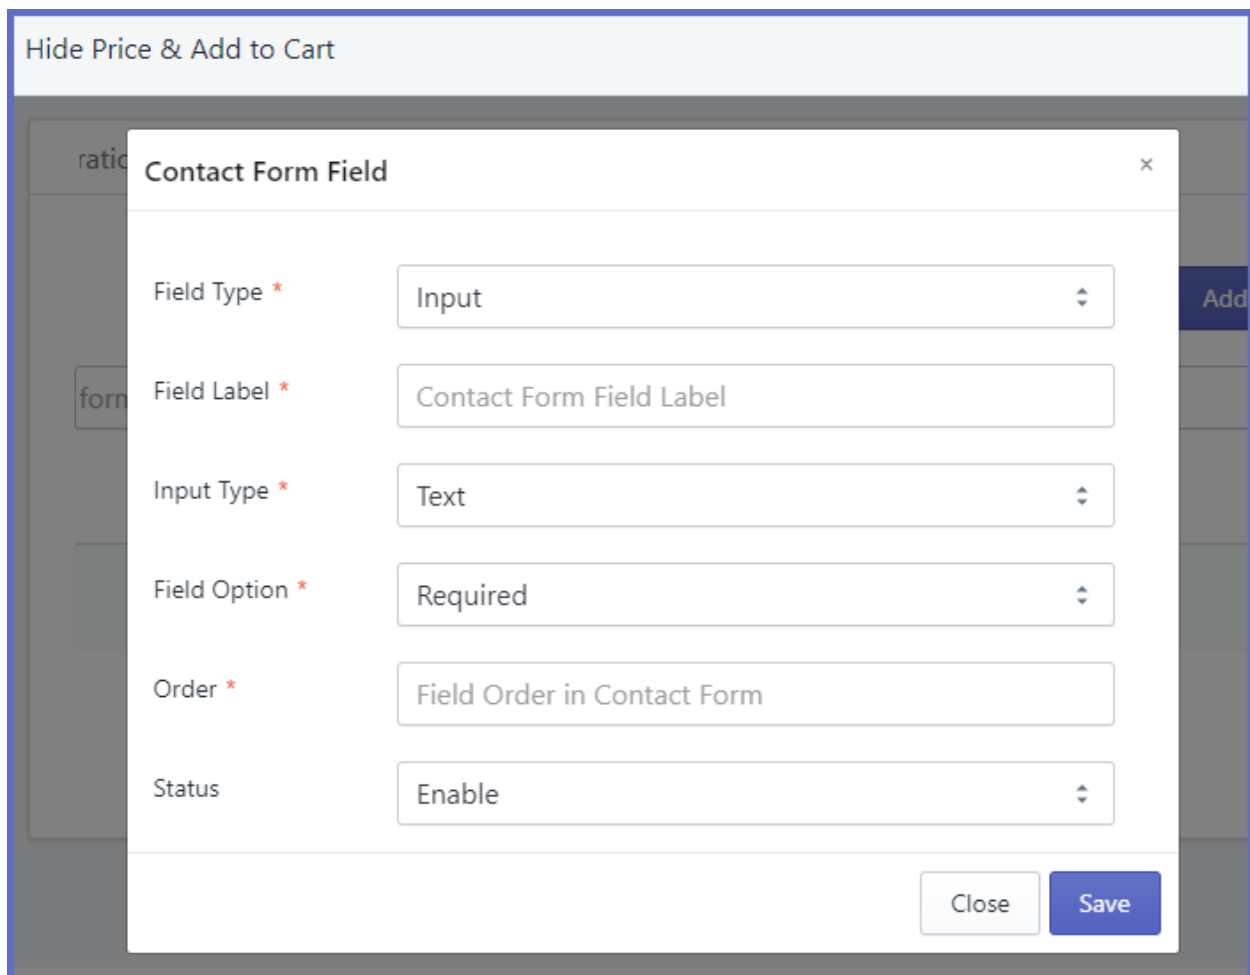

Search form fields

Field Label	Field Type	Input Type	Order	Status	Action
Name	input	text	1	Enabled	 
email	input	email	1	Enabled	 

Here you will have to provide the following fields data:

- **Field Type:** Choose the type of form field:
 - Input
 - Text Area
- **Field Label:** Enter a label for the contact form field
- **Input Type:** Choose the input type:
 - Text
 - Number
 - Email

- Date
 - Contact Number
- **Field Option:** Mark the field as:
 - Required
 - Optional
- **Order:** Specify the sort order of the field in the contact form i.e. 1,2,3 and so on
- **Status:** Option to Enable or Disable the form on the frontend

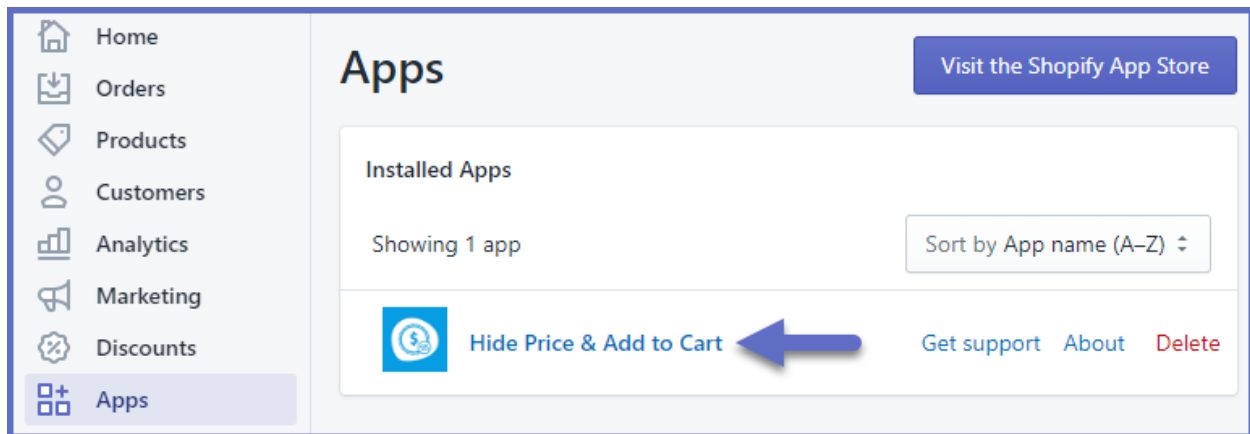

The screenshot shows a modal window titled "Contact Form Field" with a close button (X) in the top right corner. The modal is overlaid on a background that includes the extension title "Hide Price & Add to Cart" and some blurred interface elements. The modal contains the following fields:

Field Name	Field Value
Field Type *	Input
Field Label *	Contact Form Field Label
Input Type *	Text
Field Option *	Required
Order *	Field Order in Contact Form
Status	Enable

At the bottom right of the modal, there are two buttons: "Close" and "Save".

HOW TO CREATE HIDE PRICE & ADD TO CART RULES

At the back end, go to [App Configuration](#) from the app page as highlighted above. Here you will find the list of all the apps running on your store. Click on [Hide Price & Add to Cart](#) to continue.

Here you will find all the rules. You have the option to [Edit](#) or [Delete](#) the existing rules and also you are allowed to create new rules. Click on the [Add Rule](#) button to add a new rule.

25	ZZZ	on	on	Zipped Jacket	Enabled	<div> <div></div> <div></div> </div>

Here you will have to provide the following rule settings:

RULE SETTINGS

- **Rule Title:** Enter a title for the new rule (**Note:** This title will be only used for the backend)
- **Hide Price:** Option to Enable or Disable the hide price. If you enable it, a new field will appear at your screen:
 - **Replace product price with:** Options to choose the price replacement type:
 - None
 - Text
 - Link / Button
 - Image/Icon
 - Contact Form

(**Note:** For the user guide, we have selected the '**None**', option. If you select any other option than 'None', some new fields will appear according to the selected price replacement type option. You have to provide data for those fields. This is also same for the Cart Replacement Type field)

- **Hide Cart Button:** Option to Enable or Disable the hide cart button (**Note:** When "hide price" is enabled the "hide cart" will be automatically applied. If you just want to hide add to cart button, please **uncheck** the "Hide Price")
 - **Replace "Add to cart" & "Buy it now" buttons with:** Options to choose the cart replacement type:
 - **None**
 - **Text**
 - **Link / Button**
 - **Image**
 - **Contact Form**
- **Status:** Option to Enable or Disable the rule
