

SCROLL FREELY

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the [Scroll Freely](#) app for Shopify. A step by step instruction has been added to this document to help users to install this app on their Shopify stores.

This app will only work on Shopify. As a safe practice always backup your files and database before installing any app on your store. If you are looking for someone to install this app, we can do it for you as well. Just go to our store page and let our support know the order id to expedite the installation process.

Once it is installed please refer to the User Guide to help you understand how to use this app to its full capacity. If you still have questions, feel free to contact us via email at info@extendons.com.

Installation Guide for OS2.0

Manually add the Code in the Theme

Add this code in the theme so Scrolling stops when product ends

```
<input type='hidden' name='eosh-total-pages' class='eosh-total-pages' value='{{ paginate.pages }}' />
```

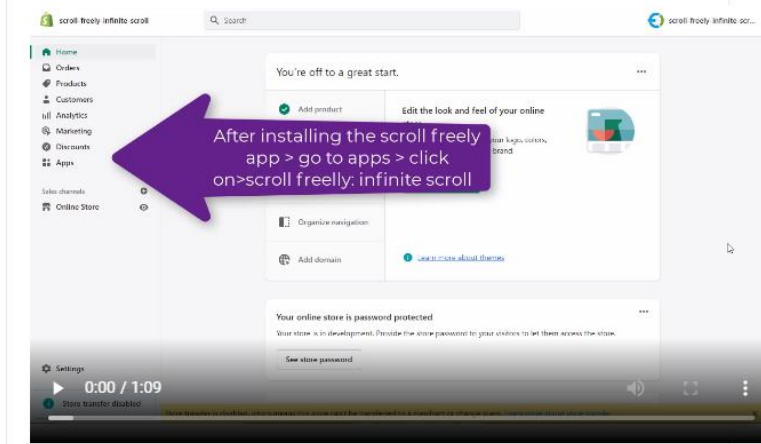

Copy the Above Code and paste it in your collection file before **(%- endpaginate -%)** as shown in the below screenshot

Installation Instructions

Enable App Embeds

Watch this video tutorial on how to Enable the App Embeds

HOW TO CONFIGURE SCROLL FREELY APP

At the back end, go to the app page. Here you will find the list of all the apps running on your store. Click on the [Scroll Freely](#) app to continue. Here you will have to provide the following settings:

GENERAL

- **App Status:** Option to Enable or Disable the app
- **Select Loading Type:** Option to select the loading type of products on the catalog page:
 - **Scroll Down**
 - **Load More Button**
- **Select Animation Type:** Option to select the animation type/effect of loading products on the catalog page:
 - **No Animation**
 - **Bounce**
 - **Bounce In Right**
 - **Shake**
 - **Fade In**
 - **Fade In Down**
 - **Slide In Left**
 - **Slide In Down**
 - **Slide In Up**
 - **Slide In Right**

- **Select Products Per Page:** Specify the total number of products that will show on one page
- **Enable Loading Image:** Option to Enable or Disable the loading image on the product's catalog page (**Note:** If you disable this option, then a custom message will display on the catalog page upon starting & ending of loading products)
- **Loading Image:** Option to upload a custom loading image

The screenshot shows a settings panel for the 'Scroll Freely' app. At the top, there is a navigation bar with several tabs: 'General' (highlighted with a red box), 'Load More Button', 'Show Less Button', 'Scroll Top Button', 'Message', and 'Add/Remove Assets'. Below the navigation bar, the 'General Setting' section contains the following options:

- Enable Scroll Freely App:** A checkbox that is checked.
- Loading Type:** A dropdown menu set to 'Infinite Scroll'.
- Animation Type:** A dropdown menu set to 'Bounce'.
- Loading Graphic:** A dropdown menu set to 'Enable'.
- Upload Graphic:** A button labeled 'Choose File' next to the text 'No file chosen'.

A 'Save' button is located in the bottom right corner of the settings panel.

LOAD MORE BUTTON SETTING

- **Text For Load More:** Option to specify a custom text for the load more button
- **Background Color:** Option to select the background color of the load more button
- **Mouse Hover Color:** Option to select the color of the load more button on mouse hover
- **Border Color:** Option to select the border color of the load more button
- **Text Color:** Option to select the text color of the load more button
- **Mouse Hover Text Color:** Option to select the text color of the load more button on mouse hover
