USER GUIDE

After reading the installation guide of the module, you are now ready to use the **OpenCart Blog Module** by using the following steps.

HOW TO ADD BLOG POST

At the back-end, go to **Extendons Blog > Manage Blog** click **Add** button to add new blog or you can edit previous blog posts as all the submitted blogs are displayed here.

The screenshot shows the 'Extendons Blog' back-end interface. On the left is a dark navigation sidebar with 'Manage Blog' selected. The main area is titled 'Extendons Blog Home > Manage Blogs'. At the top right, a purple arrow points to a blue '+ Add' button. Below this is a 'Blogs List' section with a form to create a new blog post, including fields for Title, Tags, Status, Author, and Categories, and a 'Filter' button. Below the form is a table of existing blog posts:

	Title	Author	Categories	Tags	Comments	Likes	Status	Action
<input type="checkbox"/>	Apple iPhone 11 Pro	Admin	Latest Smart Phone 2020		0	0	Enable	
<input type="checkbox"/>	Apple iPhone 11 Pro Max	Admin	Latest Smart Phone 2020	one, two, three, four	0	0	Enable	
<input type="checkbox"/>	Dell Latitude E7440	Admin	Latest Laptops 2020		1	0	Enable	

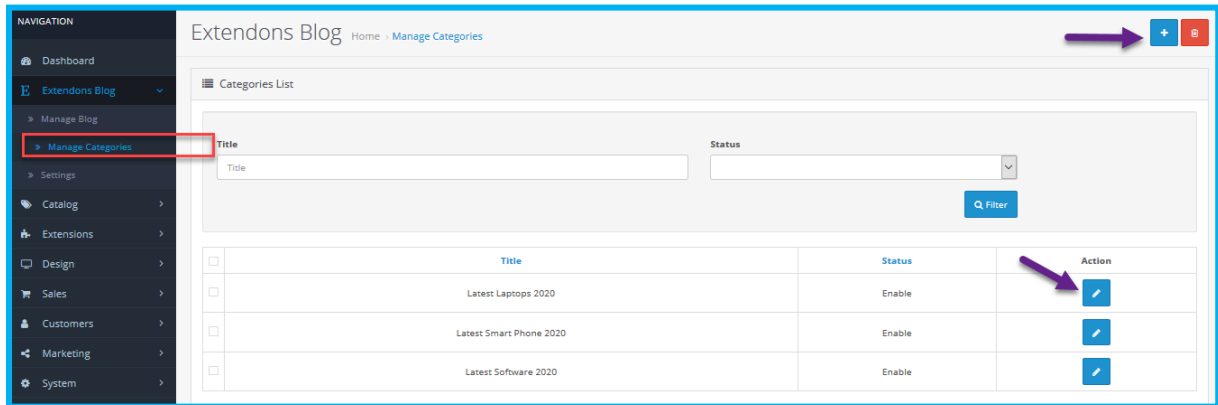

After clicking **Add** button you can you can set the title, meta title & description , author name, keywords and many more for each blog post.

The screenshot shows the 'Add New Blog Post' form. The 'General' tab is selected and highlighted with a red box. A purple arrow points to the form fields. The form includes the following fields:

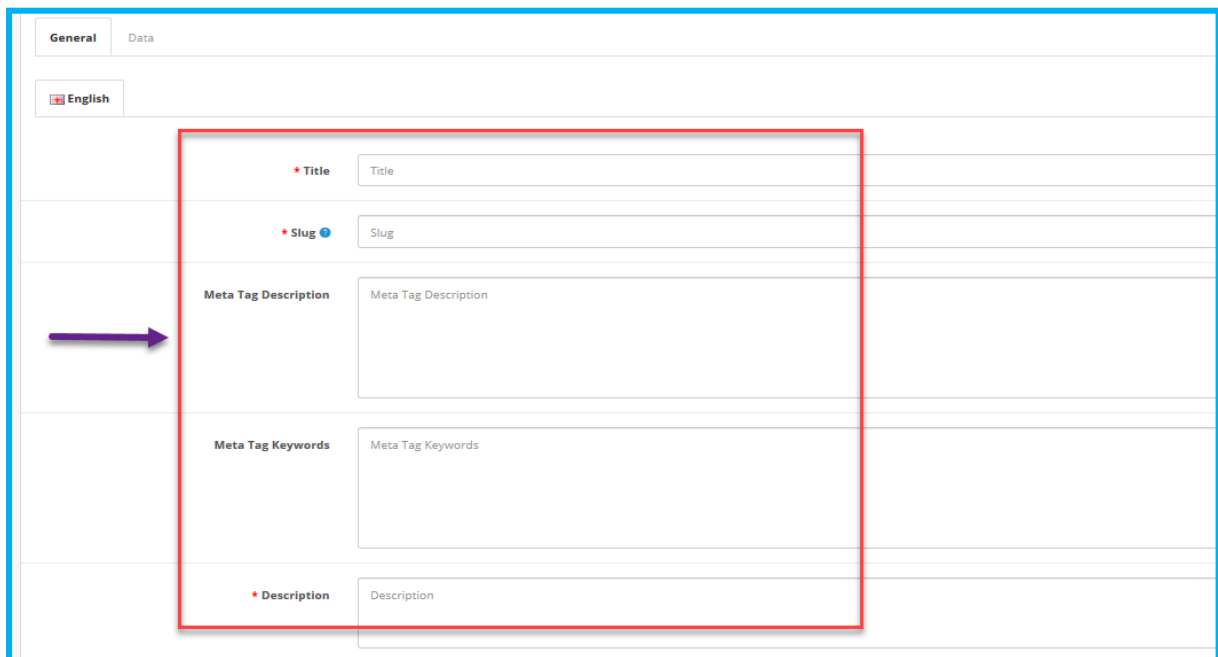

- Title**: Text input field.
- Slug**: Text input field.
- Author**: Text input field.
- Meta Tag Description**: Text area.
- Meta Tag Keywords**: Text area.
- Description**: Text area.
- Excerpt**: Text input field.

HOW TO CREATE CATEGORIES FOR BLOG POSTS

At the back-end, go to **Extendons Blog > Manage Categories** click **Add** button to add new category for each blog, you can edit previous categories as all the categories are listed here.

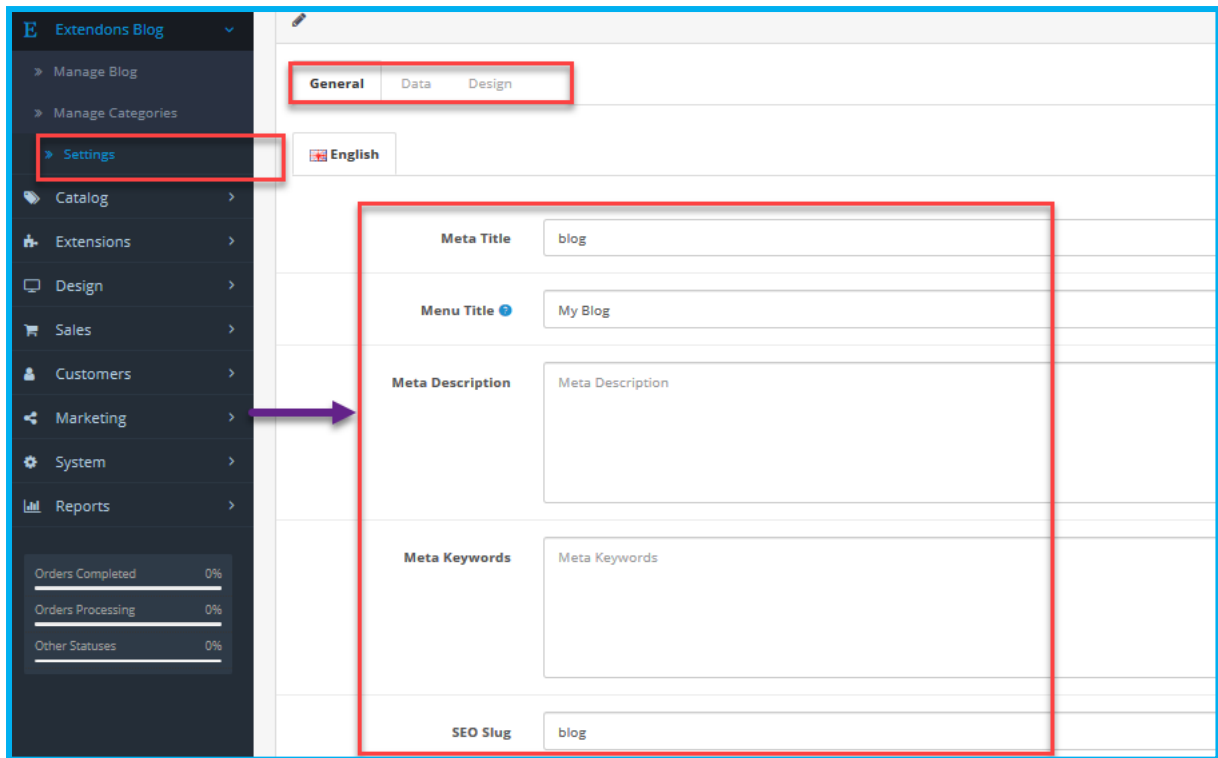

After click **Add** button, you can add title, description, keywords, etc. for each category.

HOW TO CONFIGURE BLOG PAGE

At the back-end, go to **Extendons Blog > Settings** to configure blog page such as title, description, keywords etc.

DISCLAIMER

It is highly recommended to back-up your server files and database before installing this module. No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.
