USER GUIDE

After reading the installation guide of the module, you are now ready to use the extension by using the following steps.

HOW TO ADD/EDIT GEOIP RESTRICTIONS/REDIRECTS

At the back-end, go to **Extensions GeoIP Ultimate Lock**. Here you will find the list of all the rules in your store. Click on **+** to continue.

The screenshot shows the back-end interface of the GeoIP Ultimate Lock module. On the left is a navigation menu with options: Dashboard, Extensions GeoIP Ultimate Lock (highlighted), Catalog, Extensions, Design, Sales, and Customers. The main content area is titled 'GEO IP Ultimate Lock' and includes a breadcrumb 'Home > GEO IP Ultimate Lock'. Below the title is a 'Rules List' section containing a table with the following data:

<input type="checkbox"/>	Rule Name	Priority	Date Added	Status	Action
<input type="checkbox"/>	US Redirection Rule	1	2019-09-17 12:25:39	Enabled	
<input type="checkbox"/>	UK Restriction (on Canon EOS 5D & About Us)	2	2019-09-18 07:33:59	Enabled	

At the bottom right of the table, it says 'Showing 1 to 2 of 2 (1 Pages)'.

Here you have to provide the following information to create a restriction/redirection rule.

Rule Information

General:

- ❖ Rule Name
- ❖ Rule Mode
 - Show Message
 - Redirect
- ❖ Rule Error Message: Dependent on Show Message
- ❖ Site URL: Dependent on Redirect

[Product](#) / [Categories](#) / [Manufacturers](#) / [Information Pages](#)

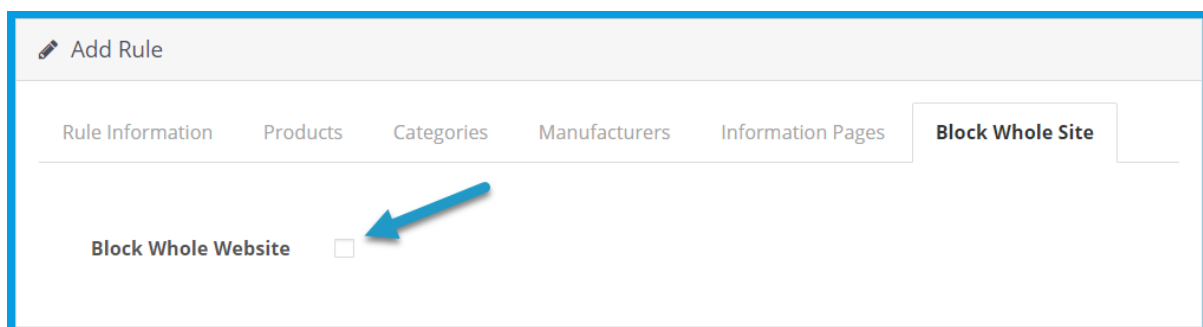

In these tabs you can attach products, categories, manufacturers and information pages to the rule. If you use **AND**, then ALL of the conditions must be met. If you choose **OR**, then the product will be listed if at least 1 condition is met.

The screenshot shows the 'Add Rule' form with the 'Manufacturers' tab selected. A blue arrow points to the 'Block Whole Site' tab. The 'Filters' section shows a conjunction of 'AND' and a text input field for 'Manufacturer Ids with comma(,) Separated'. A blue arrow points to the 'AND' option in the conjunction dropdown.

Block Whole Site

You can apply rule to entire website with this click.

The screenshot shows the 'Add Rule' form with the 'Block Whole Site' tab selected. A blue arrow points to the 'Block Whole Website' checkbox, which is currently unchecked.

DISCLAIMER

It is highly recommended to back-up your server files and database before installing this module. No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.

SUPPORT

You can also find Step by Step guide on this extension by visiting the [Opencart GeoIP Ultimate Lock](#) product page on our website. If you need more information or have any questions or problems, please refer to our support help-desk:

<https://support.extendons.com>

You can log a ticket and a support technician can assist you further. If you are still struggling with your extension, submit a request via info@extendons.com
